PROFESSIONAL EXPERIENCE

Engineer – Infrastructure Services

Jul 2026 – Present

Neurealm Private Limited

- Provide end-user IT support at a client location, resolving day-to-day hardware, software, and workplace technology issues.
- Handle incident and service request tickets, troubleshoot reported issues, and coordinate with relevant teams for timely resolution.
- Support laptop and device deployment, provisioning, workstation setup, and configuration of peripherals and workplace devices.
- Manage IT assets through asset tagging, inventory updates, device tracking, and documentation.
- Troubleshoot Windows systems, hardware, peripherals, and common end-user computing issues.
- Provide user support for Microsoft 365 and Outlook-related issues as part of daily IT operations.
- Assist with workspace and device setup while following established IT support processes and service-level requirements.

Technical Assistant

Jun 2024 – Feb 2026

Indian Institute of Technology Gandhinagar

- Provided technical assistance for software installation, system setup, and troubleshooting activities in a Linux-based technical environment.
- Supported users with desktop-related issues and basic IT troubleshooting to maintain smooth day-to-day operations.
- Collaborated with technical and research teams to support system requirements, operational tasks, and workflow efficiency.
- Processed and validated multilingual datasets while maintaining accuracy, documentation, and organized technical workflows.
- Assisted with technical operations and troubleshooting to ensure reliable use of systems and computing resources.

Technician Apprentice (IT Support)

Mar 2022 – Mar 2023

Bharat Electronics Limited (BEL), Bangalore

- Resolved 20+ daily IT support incidents involving hardware, software, printer, and network-related issues.
- Delivered remote and on-site technical support to 50+ end users across multiple departments.
- Installed, configured, and maintained Windows and Linux operating systems in an enterprise environment.
- Supported Microsoft Outlook, email configuration, and user profile-related issues.
- Troubleshot DNS, DHCP, VPN, IP configuration, and network connectivity issues.
- Installed and configured printers, scanners, and peripheral devices for end users.
- Escalated unresolved issues to appropriate teams and followed up to support timely resolution and minimize downtime.
